7. ☒ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____

PATRICK JOSEPH RYAN
SUPERVISORY PATENT EXAMINER

DETAILED ACTION

Remarks

This Office action is responsive to applicant's amendment filed September 6, 2006.

Claims 4-6 and 10-12 are pending.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows to correct minor typographical errors:

1. In claim 4 at line 8, "metaloid" has been changed to --metalloid--.
2. In claim 5 at line 8, "metaloid" has been changed to --metalloid--.
3. In claim 6 at line 8, "metaloid" has been changed to --metalloid--.

Allowable Subject Matter

Claims 4-6 and 10-12 are allowed for the reasons set forth in the prior Office action. The examiner notes that claims 4-6 have been rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Pat. 5,879,836 to Ikeda et al. teaches hollow carbon nanotubes, however, there is no teaching or suggestion of the nanotubes having within them and inside said nanotubes a metal or metalloid that can form alloys reversibly with lithium. Instead, Ikeda et al. focuses on the "open nets of fibrils..." for its "high external surface area...." See col. 3 lines 5-22 and claim 3.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julian Mercado whose telephone number is (571) 272-1289. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick J. Ryan, can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
